

# The ABC of Computational Text Analysis

*#10 NLP WITH PYTHON*

Alex Flückiger

Faculty of Humanities and Social Sciences  
University of Lucerne

08 May 2025

# Recap last lecture

- from unique words to comparable embeddings   
relational meaning  
more granular representations are more effective
- modern, data-driven NLP is both powerful and biased   
there is nothing like raw data or objective models

# Outline

- get some organizational stuff done
- let's do serious NLP! ✨
- code interactively
  - interrupt, ask, and complement

# REMINDER: Course Evaluation 📢

Please follow the QR code or link in the email received

Thanks for any constructive feedback,  
be it sweet or sour! 🙏

# Your mini-projects

## You are ready to work (self-paced)

- your project idea is recorded [here](#)
- see requirements [here](#)  
group size max. 3 people
- find inspiring projects of the past [here](#)

Happy to help! Reach out if you are stuck! 🤖

Let's apply this in practice ✨
